Application No. 10/162,321

Group Art Unit 3731

Filed: December 17, 2001

For: Surgical screw for recomposition of human bone structures

STATEMENTS ESTABLISHING UNINTENTIONAL DELAY

Applicant hereby submits the following statements of Applicant's counsel establishing unintentional delay in filing a Request for Continued Examination.

1. A Final Office Action was mailed to Applicant's former counsel on July 27, 2004.
2. The undersigned attorney was retained to file a Response to the Final Office Action on or about December 21, 2004.
3. Although I was unfamiliar with the prosecution history, I did review the Final Office Action and determined that an amendment appeared to be appropriate to place the application in position for allowance, and would not require a further search or examination.
4. I filed a Response and Amendment After Final on December 23, 2004.
5. An Advisory Action was mailed January 11, 2005, and was received by my office within a few days thereafter. Because of the instance of the Christmas and New Year's holidays, I had not anticipated that an Advisory Action would be prepared and mailed less than three (3) weeks after I had send the Response and Amendment After Final, and did not expect to receive an Office communication on this file in early January.
6. On or about the time the Advisory Action was received, my former secretary left the firm on pregnancy leave, and I was assigned a new secretary who was unfamiliar with my

{M2214159,1}

files and clients, and who was not then familiar with the practices and procedures of the U.S. Patent and Trademark Office.

7. My new secretary did not realize that the date for responding to the Advisory Action was based upon the date of the Final Office Action (July 27, 2004). Although the Advisory Action was placed in my office, I misread the application number, and did not realize that the application would become abandoned in approximately two (2) weeks. As a result, the final date for responding (January 27, 2005) was not docketed. I did not review the contents of the Advisory Action until the deadline for filing the Request for Continued Examination had passed.

8. My failure to respond within six months of the Final Office Action was unintentional. It is my standard procedure to docket incoming patent correspondence as it is received and to have my secretary maintain an independent docket for patent matters. In this case, unusual circumstances combined to cause the Advisory Action not to be docketed. As a result of this event, I have modified my intake procedures to avoid the repetition of an inadvertent failure to docket incoming correspondence from the Office.
